Who we are

Ponea Health is a Dutch-based global focused mature startup founded by experienced global entrepreneurs and is focused on the delivery of on-demand healthcare, real-time price discovery, building trust among healthcare players, improving service delivery and democratising of healthcare in Africa while enabling patients to have control of their health. We are leveraging on platform economies, fin-tech and emerging technologies to achieve this transformation.

Ponea Health is a VIP health concierge & e-commerce healthcare technology platform connecting licensed vetted and rated healthcare service providers with patients to provide health related services.
